Mr. Dev Vasudev
3 Stockton Drive
Ringoos, NJ 08551

November 25, 2013

Dear Mr. Vasudev:

The Rhode Island Department of Environmental Management has approved your MWS Linear 2.0 Stormwater Treatment System as an authorized Best Management Practice under the 2010 RI Stormwater Manual. The Department has reviewed the document you submitted on October 4, 2013 and determined that you have provided the minimum requirements outlined in Appendix J of the stormwater manual.

The Department has one condition for this unit to be used in Rhode Island. The term wetland cannot be used as part of the name of the treatment system. The use of the term "wetland" has numerous legislative and regulatory implications under which this unit does not fall. Therefore, this unit will be referred to as the MWS Linear 2.0.

If you have any questions or concerns, please feel free to contact me at 401-222-4700 x7232. This news will be broadcast on our Stormwater ListServe.

Sincerely,

Alisa R. Richardson, PE
Water Quality Certification
Department of Environmental Management
